APPLICATION NO 09/615606	CONT PR OR	CLASS 445	SUBCLASS	ART UNIT 1543	EXAMINER JAN
-----------------------------	------------	--------------	----------	------------------	-----------------

## APPLICANTS

1. The first step is to identify the problem. This involves understanding the current situation and what needs to be changed.

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a modified training program. The results of the training program were compared between the two groups.
